**ANNOUNCEMENT OF  
PREQUALIFICATION TENDER FOR INTERNATIONAL TENDER**

**Number: 014/Peng.Pem/PL.01.05/09/2023**

The Procurement Service Unit of National Research and Innovation Agency (BRIN) will carry out Prequalification Tender for Procurement of Optical High Resolution Remote Sensing Satellite Imageries Package with the details as follows:

**1. Work Package**

Name of work package : Procurement of Optical High Resolution Remote Sensing Satellite Imageries.

Scope of work :

1. Provide high resolution (HR) optical data remote sensing satellite access via Direct reception system (DRS) or virtual reception system (VRS).
2. Provide the most optimal solution options for single and/or multi years project.
3. Provide the best solution option, one package for all mission satellites or over for each mission satellites.
4. Provide single license data for all Institutions within the Government of the Republic Indonesia for HR optical remote sensing satellite data.
5. Provide technology transfer/human capital development programs in the operation of DRS or VRS to a minimum of 10

staff BRIN participants for a minimum of 3 days. The technology transfer event was held in Indonesia.

6. Provide platform for programming tasking and/or data management and distribution.
7. Guaranteed volume access to the satellite resources.

Total owner estimates (HPS) : IDR 18.300.000.000  
(Eighteen billion three hundred million rupiah).

Source of funding : State Budget of DIPA BRIN for Fiscal Year 2023

## **2. Requirements of Participant**

This procurement package is open to International Manufacturers that meet the requirements for Business Line of procuring Optical High Resolution Remote Sensing Satellite Imageries.

## **3. Implementation of the Procurement**

Procurement of goods/services is carried out by accessing [csrt-optik@brin.go.id](mailto:csrt-optik@brin.go.id)

## **4. Procurement Implementation Schedule**

Schedule can be seen in the prequalification document.

The above has been brought to your attention.

**ANNOUNCEMENT OF  
PREQUALIFICATION TENDER FOR INTERNATIONAL TENDER**

**Number: 013/Peng.Pem/PL.01.05/09/2023**

The Procurement Service Unit of National Research and Innovation Agency (BRIN) will carry out Prequalification Tender for Procurement of High Resolution Synthetic Aperture Radar (SAR) Remote Sensing Satellite Imageries Package with the details as follows:

**1. Work Package**

Name of work package : Procurement of High Resolution Synthetic Aperture Radar (SAR) Remote Sensing Satellite Imageries.

Scope of work :

1. Provide High Resolution (HR) SAR data remote sensing satellite access via direct reception system (DRS) or virtual reception system (VRS).
2. Provide the most optimal solution options for single and/or multi-years project.
3. Provide the best solution option, one package for all mission satellites or over for each mission satellites.

4. Provide single license data for all Institutions within the Government of the Republic Indonesia for HR SAR data remote sensing satellite.
5. Provide technology transfer/human capital development programs in the operation of DRS or VRS to a minimum of 10 staff BRIN's participants for a minimum of 3 days in Indonesia.
6. Provide platform for programming tasking and/or data management and distribution.
7. Guaranteed volume access to the satellite resources.

Total owner estimates (HPS) : IDR 2.203.200.000  
Source of funding : State Budget of DIPA BRIN  
for Fiscal Year 2023

## **2. Requirements of Participant**

This procurement package is open to International Manufacturers that meet the requirements for Business Line of procuring High Resolution Synthetic Aperture Radar (SAR) Remote Sensing Satellite Imageries.

**ANNOUNCEMENT OF  
PREQUALIFICATION TENDER FOR INTERNATIONAL TENDER**

**Number: 016/Dok.Kual/PL.01.05/09/2023**

The Procurement Service Unit of National Research and Innovation Agency (BRIN) will carry out Prequalification Tender for Procurement of Very High Resolution Optical Remote Sensing Satellite Imageries Package with the details as follows:

**1. Work Package**

Name of work package : Procurement of Very High Resolution Optical Remote Sensing Satellite Imageries.

Scope of work :

1. Provide very high resolution (VHR) optical data remote sensing satellite access via Direct reception system (DRS) or virtual reception system (VRS);
2. Provide the most optimal solution options for single and/or multi years projects;
3. Provide the best solution option, one package for all mission satellites or over for each mission satellite;
4. Provide single license data for all Institutions within the Government of the Republic Indonesia for VHR optical data remote sensing satellite;

5. Provide technology transfer/human capital development programs in the operation of DRS or VRS to a minimum of 10 staff BRIN's participants for a minimum of 3 days. The technology transfer event will be held in Indonesia;
6. Provide platform for programming task and/or data management and distribution.
7. Guaranteed volume access to the satellite resources.

Total owner estimates (HPS) : IDR 27.356.400.000  
(twenty seven billion three hundred fifty six million and four hundred thousand rupiah).

Source of funding : State Budget of DIPA  
BRIN for Fiscal Year  
2023
